- ⌚ **Bill more hours in less time**
- ⌚ **Quote with accuracy**
- ⌚ **Absurdly detailed, yet simple billing**
- ⌚ **Integrate with your systems**
- ⌚ **Private - share only what you choose**
- ⌚ **Invaluable insights**

Account for every minute, without wasting any on timekeeping

Let WiseTime take care of your timekeeping, while you focus on what's important. WiseTime summarises your tasks behind the scenes while you work and records them all privately for you. You can then choose which tasks to add to a project or share with your team, and which tasks to keep private. WiseTime generates a seamless overview of your day, so you know exactly where your time went.

Bill more hours in less time

When every minute counts it's hard to see them going to waste on the administration of timekeeping. WiseTime is a passive tool, which means it works while you do without you having to press start or stop or add any task descriptions. It will be your 'memory' for every minute of the day, and also automatically tag your tasks with case id's, client numbers or project names so that no relevant minutes go unallocated.

Absurdly detailed, yet simple billing

Share a detailed chronicle of your work and provide thorough billing reports. With the grouping feature, you can pull together varied tasks and narrate them to clarify the scope of your tasks. Then simply submit the time and this will flow through to your invoices and billing. Simple, clear, and still absurdly detailed.

Retain your privacy and share only what you choose

WiseTime captures all of your tasks but never releases them – not to your clients, your billing system or your team – until you choose to do so. You can keep your private tasks private, and only release what is relevant.

Quote with accuracy

Implement fixed fee arrangements with the comfort of knowing your estimates are accurate. WiseTime reporting allows you to easily analyse the real time spent on cases so you can quote accurately.

Fully automated and integrated with docketing systems

Integrating WiseTime with your existing systems gives it the smarts to automatically tag tasks with the relevant case id's, client numbers or project names from your existing systems as you work on them without requiring any intervention from you. When you submit your hours, they will automatically get added to the right places. WiseTime is even better than the timekeeping PA you wish you had!

Invaluable time management insights

Know exactly what tasks are taking up the most time, which cases are driving the bottom dollar and which areas you can save precious minutes in. With WiseTime analysing your time allocation for you, you can make smarter decisions.

**So focus on what's important,
and let WiseTime take care of the rest.**

“We ran a WiseTime trial to see if we can increase billable hours over our existing ‘start-stop’ timekeeping tools. On average, we recovered another hour per person a week in billable time. This is a **significant ROI.**”

D.S. TRIAL MANAGER AT LAW FIRM, AUSTRALIA

“

“ After years of looking for a solution to track my time, WiseTime finally gives me a report that I can use, without me having to do anything. **Priceless!** ”

MARITZA SCHAFFER, IDYME, US

“ Every morning I spend about three hours answering client emails. WiseTime automatically tags my replies with the client matter number, so now I know exactly what I worked on. **Whether I bill it or not, this is terrific!** ”

TONY LEE, ATTORNEY, AUSTRALIA

“ I manage 20 software developers across 7 countries. WiseTime tells me how many hours each contractor worked for me, and which activities consumed the most time. It **even integrates with JIRA!** ”

STUART HUGHES, LONDON
